## Injury Fund Claim Guidelines

In the event of an injury sustained during training or a match:

- Report injury immediately to team manager
- Report injury to Club Chairperson
- Report injury to Club Secretary and request an Injury Claim Form.
- In the presence of the Club Secretary, fill in preliminary notification of the Claim Form. The Claim Form **MUST** be submitted to Willis Ltd or the LGFA within 60 days of the injury.
- Attend your GP and inform them of the injury. Ask your GP for a referral for private medical treatment if immediate treatment on the NHS is not available and if permission is given by Club Chairperson and Secretary
- **DO NOT** attend a private physiotherapist without your GP and/or Club Chairperson and Secretary's approval as the Injury Fund may not pay for this treatment.
- If referred for private treatment by your GP ask for invoices and receipts for all payments made and forward these to the Club Secretary
- If claiming for loss of wages and other expenses, comply with all requests made by the Club Secretary for supporting paperwork.
- The Claim Form should be filled in fully and properly by the player, their GP and their employer before being forwarded for processing
- The Claim Form and its proper completion are the responsibility of the player
- If found to be making a claim for non-GAA related injury, disciplinary action may be taken by the Club, County Board and/or Central Council
- Failure to comply with these Guidelines may result in your Claim being turned down
